

MUSTAFA MANSUOR

Khartoum, Sudan |
| mustafastudies123@gmail.com

An Information Technology Graduate seeking a position in a adynamic organization to enhance my career and work towards building a stronger set of skills.

EXPERIENCE

MOBILE APPLICATION DEVELOPMENT

April 2023 – January 2024

- Description: Developed a comprehensive service ordering application for Top Care company.
- Technology Used: Flutter for the frontend and backend development and firebase for the database.
- The App facilitates seamless service modification, requests, and update.
- Led the development of the web application for managing orders and services and generating insightful reports.
- Developed firebase functions for adding new services, modifying, and updating existing ones.
- Integrated firebase for real-time data updates and a secure database structure.
- Achievement: Successfully streamlined the service ordering process across mobile and web platforms, enhancing overall efficiency. Ensure data accuracy and reliability in both mobile and web applications.
