Portfolio: Portfolio (triplem-portfolio.vercel.app)

A motivated Information Technology graduate skilled in full-stack web and mobile application development, seeking a Full-Stack Developer role. Proficient in ASP.NET Core, SQL Server, and Flutter, with hands-on experience in building scalable web applications, cross-platform mobile apps, and integrating Firebase for real-time data management. Passionate about leveraging technical expertise to develop user-centric solutions that solve real-world challenges while ensuring performance, security, and scalability.

EDUCATION:

BACHELOR DEGREE IN INFORMATION TECHNOLOGY

The Future University, Sudan.

October 2018 – April 2024

Projects:

MOBILE APPLICATION DEVLOPMENT (UNIVERSITY PROJECT):   April 2023 – January 2024

- **Description:** Developed a service ordering mobile and web application for Top Care company for cleaning services.
- The App facilitates seamless service modification, requests, and update.
- Integrated Firebase for real-time data updates and secure database management.
- **Technology Used:** Flutter for the frontend and backend development and firebase for the database.
- **Achievement:** Successfully streamlined the service ordering process across mobile and web platforms, enhancing overall efficiency. Ensure data accuracy and reliability in both mobile and web applications.

SCHOOL MANAGEMENT SYSTEM: December 2024 – February 2025

- **Description:** Developed a web-based system with an admin panel for managing students, teachers, and classes.
- Automated account creation for students and teachers upon registration.
- Created a teacher panel for adding notes and assignments, among other features.
- Designed a student panel. One of the features is viewing subjects and related materials.
- **Technologies Used:** ASP.NET Core, Razor Pages, SQL Server.

ADDITIONAL PROJECTS: Real-Time Chat App, Activity Finder web app and More on GitHub.

TECHNICAL SKILLS:

- **Frameworks & Libraries:** Flutter, Firebase, Asp.Net.
- **Frontend Technologies:** Dart, HTML, CSS, JavaScript.
- **Backend Technologies:** Firebase, REST APIs, C#, SQL Serve.
- **Development Tools:** Visual Studio, Visual Studio Code, Android Studio, Git.
- **Languages:** Native Arabic, Professional English.

SOFT SKILLS:

- **Technical Proficiency:** Understanding of troubleshooting, software applications, and IT infrastructure.
- **Problem-Solving:** Strong analytical skills with attention to detail.
- **Communication:** Effective verbal and written communication skills
- **Adaptability**: Quick learner with a positive attitude towards challenges.

- **Web & Mobile Application Development:** Experience with frontend and backend technologies; skilled in cross-platform mobile app development.
- **Project Management:** Hands-on experience in leading and managing IT projects.
